MEMORANDUM FOR: Chief, Resource Management Staff

SUBJECT : Comments on KIQ Performance Report
For KIQ's 25, 26, 27, 28, 29

1. KIQ 27 was inadvertently omitted from these evaluations and is not available to us. I have queried Adm. Bergin on this issue and he indicated that we should have it in the next week or so.

2. KIQ 25 should acknowledge that the data bases in the [REDACTED] are joint CIA-DIA data bases. At present, Paragraph D indicates that DIA developed and maintains the ground O.B. file and that "an interagency memorandum" establishes Pact personnel strengths. In fact, OSR did most of the initial work on the manpower strengths and made substantial inputs to the O.B.

3. KIQ 26 fails to mention CIA production anywhere despite the fact that virtually every new concept in NIE 11-14-75 was first surfaced in an OSR paper or briefing. Only the new DIA Branch is cited and we cannot identify any input this branch may have made. It was our impression that the DIA contributions were largely, if not entirely, drafted in DE.

4. KIQ 28 No comment.

5. KIQ 29 No comment.
